

STSN Govt. Degree College

Department of Chemistry

Extra-Curricular Activities

Extra-curricular plays an important role in one's overall personality development. Extra-curricular means getting an exposure to things and activities that reside outside of your academic curriculum. College is a place that lays the foundation to you and your career. It is a place where you not just gain the academic knowledge but also where your overall personality development take place. And it's the Extra-curricular activities that are responsible for grooming your overall personality.

- Students take part in NSS Activities.
- Students and faculty voluntarily donate blood in the donation camp held in the campus yearly once.
- Students and faculty actively take part in Co and Extra Curricular Activities like participating in departmental events like SWACHH CAMPUS and in many inter college sports events.
- Students and faculty organize Extra-curricular activities through the departmental club, CHE'M'ISTRY.
